Recognition of Prior Learning (RPL) is an assessment process that allows individuals to have their existing skills, knowledge, and experience, gained through formal or informal learning—recognised towards the achievement of a nationally recognised qualification or unit of competency.

At Safe Work Training, RPL is granted only where sufficient, valid, current, and authentic evidence demonstrates that a candidate meets the requirements of the relevant training package or accredited course, as outlined in the Standards for RTOs 2025.

Assessments

What is Assessment?

At Safe Work Training, assessment is defined as the process of collecting and evaluating evidence to determine whether a student has achieved the required skills and knowledge outlined in the unit of competency.

How will I be assessed?

Each training product delivered has a written assessment. It may also include a practical assessment. Assessment methods may include but not limited to:

- Observation of practical activities or demonstration.
- Written assessment
- Paper based activities (e.g., Filling out worksheet)
- Re-assessment if required.

Assessment Feedback

Feedback will be provided to each student following the completion of the assessment.

Individual assessment tasks will be marked as either:

Competency Achieved (C) – this is used when a student has demonstrated the required level of competency within this area/task.

Competency Not Achieved (NC) – This will be used when a student has not demonstrated the required level of competency within their assessment.

If the Trainer deems that you are not competent, you will be given the opportunity to re-sit the assessment. The Trainer will provide you with feedback and/or further guidance to prepare you for your second attempt.

Students can re-sit their assessment under supervision of their trainer or another staff member, however this is based on the availability of the staff. There may be a short waiting period to re-sit the assessment. If you are unable to complete your assessment on the day, please see your trainer.

Student Feedback

We appreciate all honest feedback and constructive criticism from our students and we use this as part of our continuous improvement activities. For us to monitor the quality of our training service, we ask that all students complete a Student Survey at the completion of their course.

All information recorded will be collated by the administration staff and submitted to the NCVET, in accordance with our requirements as an RTO. Please be aware that this information does not contain the student's name and your privacy will be maintained throughout this process.

Certification Documentation

You will receive a copy of your certification document via a digital copy (via email).

We will also forward your certification documentation to your employer if you have checked the permission box on your enrolment form.
